

Adrian Jackson GoVax Video Transcript

Adrian Jackson:

I'm Adrian Jackson. I'm a barber in Baltimore City. Being a barber means a lot. We are able to influence, and impact lives through conversation and even the way that they look. That's a blessing and privilege.

And so, being that I'm a barber and I'm being trusted by my friends, my clients, I felt the need to get involved with GoVax. GoVax is the campaign that champions the vaccine initiative. Right now, we have the van outside and they're giving vaccinations as well as flu shots and you can get one right now today.

It's such a joy to be able to offer sound advice, as well as positive recommendations and to be able to help individuals in their lives outside of the chair.

Hey, the vaccine is safe, and it's effective. And it's the only way that we can get out of this pandemic. Go get vaccinated.
